

Earn 10K Plus by a simple introduction

Join us for our briefing meeting... Rialto Business Partnership Programme

You are invited to attend the Rialto Business Partnership meeting on Monday 20th February 2012 to learn how you can earn substantial commissions by leveraging your network.

Rialto is a leading management consultancy specialising in unique change management and transformation solutions which deliver exceptional results. We are currently working with a number of organisations in successfully delivering our Transforming the Performance Culture (TPC) change management solution.

TPC programmes are designed to deliver significant step changes in performance, increase profitability, improve employee engagement and customer satisfaction. TPC has achieved outstanding results for our clients. We recently completed our SymphonyIRI Group project which saved the organisation in excess of €1 million Euros.

The Rialto business partnership referral programme is very simple. We will pay you a very substantial commission if you introduce us to your business and client contacts that go on to contract with us for any of our services which include Executive Search, Career Transition and Coaching.

Rialto believes that this partnership proposition is unique in both its breadth and the level of commission that can be earned. Rialto has an outstanding track record in its chosen fields and has case studies, client references and other collateral that demonstrates its ability to deliver high quality projects in the UK and Europe.

*Earn £10K plus per project – based on a referral fee equal to 5% of a £200,000 project.
