

The Business Performance Series. Join us for our next roundtable... "**Accelerating the need for Whitewater leadership.**"

In the 21st Century, slow moving flows have disappeared, leaders now find themselves hurtling down rapids. Whitewater leadership is the new corporate necessity. Current competitive strategies often include mergers, acquisitions, restructures, outsourcing, streamlining or downsizing programmes.

**All of these strategies have one common theme...**

Employees are moved around or moved out of an organisation forcing managers to handle difficult conversations and awkward situations. As a result, management are finding themselves frequently swimming a faster moving pool of change.

This roundtable, which is **free** to attend, is an opportunity to network and learn with your key peers. The format is designed to provide an open and stimulating environment where new ideas and insights can be discussed, finding an alternative to the sheer cost, personal stress and misery that often follows in the wake of organisational change – together with a formula which is more likely to deliver vital competitive advantage and better business results.

**Who should attend:** The roundtable is an invitation only event focused on CEO's, COO's, Directors, Senior Executives and HR Leaders.

**Please join us for a working lunch roundtable:**

**Date:** Thursday 22nd April 2010

**12.00pm - Networking Lunch**

**12.30pm - Roundtable Session Commences**

**14.00pm - Close**
