

JAMES DUEZ
CO-FUNDER AND CEO : RAINBIRD TECHNOLOGIES

BACKGROUND & EXPERIENCE

A fountain of business knowledge and accomplished technology innovator, James has led strategy and operations, software engineering and business development functions in a wide variety of industries.

He is an experienced entrepreneur and prolific investor who has co-founded and exited a number of highly successful and disruptive tech companies over the last 20 years.

His portfolio includes work with both Global 250 and Global 500 organisations, and advising state departments including the Ministry of Defence and the US Department of Defense.

As co-founder of Rainbird Technologies and CEO, James combines his deep business intelligence, strategic vision and extensive knowledge of multiple industries and markets to identify unique opportunities for growth.
